# A-Z Guide for Girls New to Hong Kong

FEATURED, LIVING, NEW ARRIVALS | BY SASSY GIRLS |

## PAKT

One thing you'll learn quickly when you move to HK is that space is limited. That's why you have to check out PAKT, a **digital wardrobe** that allows you to store **seasonal, special or bulky** items in a safe, air-conditioned and clean environment (*giving you much-needed extra space!*). With **on-demand delivery, dry-cleaning, repairs and pressing all available**, you can guarantee your clothes will be looked after. Every item is photographed, so you can browse your goods whenever you want. What's more, PAKT has partnered with **Asia Miles**, giving you **up to 50,000 miles when you refer a friend** (*terms and conditions apply*) – time to book in those weekend getaways to all the amazing Asian destinations on our doorstep! If, like us, you're a fashion fiend, PAKT is an absolute MUST when you move to the 852 for an **easy, convenient and accessible storage solution**.

**Extra tip:** Need help finding a flat? PAKT founder Barbara Yu Larsson recommends *Connect*, a boutique relocation agency run by experienced expats who not only find beautiful flats, but also help you get accustomed to life in Hong Kong.
